Memo Mr. Edgan:

25X1

plan for the centralization of freign press was taken out of his hands by Asit Director, 60. It finally materialized in revised form in the Todign Documents Branch which was authorized to explicit current freign documents (other than the press). When this branch took over SDS, it inherited the responsibility for translations of USSR newspapers, a condition upon which the transfer was effected, I undertand it concerns itself hill, with the Soviet press.
